Note A	Outer primary air filter serial # 2112399 and prior (metal canister) use 21.00926 and serial number 2112400 + (plastic canister) use primary filter # 21.30163																
Note B	Inner secondary air filter serial # 2112399 and prior (metal canister) use 21.00927 and serial number 2112400 + (plastic canister) use secondary # 21.30164																
Note C	Fuel tank strainer filter, # 21.21107 with hose barb ends serial number 2112172 and prior OR # 21.21843 female threaded ends, serial # 2112173 and after.																
Note D	Hydraulic tank breather filter was not required due to a vented hydraulic tank fill cap.																
Note E	Case drain filter kit fitted in production model 2200T & SS on 1/15/2006, serial number 2112673 and model 2200HT serial number 2112705 and after (standard). This filter head (spin on filter) is U bolted to the bottom of the right side A frame. Optional enhancement, case drain filter kit for earlier machines retrofit part # 21.24367																
Note F	Model 4315 Mercedes Engine, has one continuous belt which drives both alternator and the air conditioning compressor, Use alternator/AC belt part number 21.43148																
Note G	The new filters improved design replaces the single part number 21.22259																
Note H	NO part number was established for the inside cab circulation filter located in overhead console, purchase locally John Deere # AH 92463																
Note I	Model 4333 and 4365 used from serial number 2113835 and above, quantity (1) 41444 used quantity 3 total including hydrostat filters per machine.
