

Oxbo 156/61xx Series Machines

Podder Netting

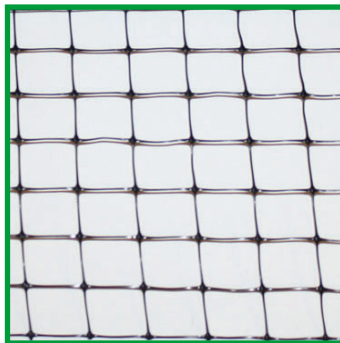

In an effort to maintain a wide selection of parts, Oxbo is now offering 3 different podder mesh options made of an improved high strength podder netting.

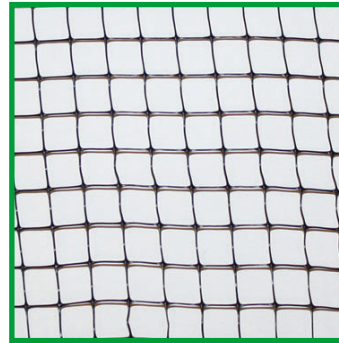

58983
PODDER NET, 5/8 EDGED LIGHT WEIGHT PLASTIC

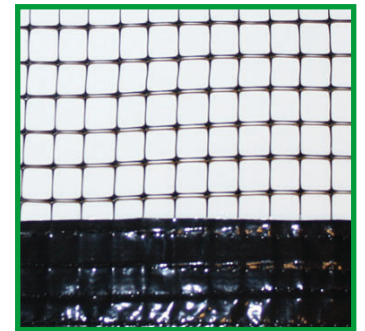

58984
PODDER NET, 7/8 EDGED LIGHT WEIGHT PLASTIC

58982
PODDER NET, 9/16, EDGED LIGHT WEIGHT PLASTIC

FINISHED PODDER NETTING EXAMPLE

Advantages

- Manufactured to be a high strength durable product
- Less debris build-up on the mesh
- Consistent mesh hole size because of the stretching process during manufacturing
- Mesh remains flexible when cold
- Extended product life

Part Number	Description
58982	PODDER NET, 5/8 EDGED
58983	PODDER NET, 9/16 EDGED
58984	PODDER NET, 7/8 EDGED

NEW!
The edging is sewn with 4 seams of stitching on each edge made of a heavier vinyl laminate.
