

Axial Piston Fan Motor

for Model 6120, 6220, 6420 & 7440 Harvesters

Oxbo is now using axial piston motors for cleaning fans on some models with Plus1 Control systems.

Axial piston motors are more efficient over longer periods of time when compared to gear motors.

- With less internal wear, the motor will perform more consistently over time.
- ***Not available on 3000 series vineyard models.***

406128 Piston Motor

| Model | Year | Where Used |
|-------|--------------|--------------------|
| 6120 | 2015-Present | Cleaning Fan Motor |
| 6220 | 2017 | Cleaning Fan Motor |
